FOR IMMEDIATE RELEASE

Guardian's Custom Glass Solutions Launches New Website to Serve RV Owners *RVGlassParts.com Makes RV Windshield Repair or Replacement Easier than Ever*

WORTHINGTON, OH (October 9, 2014) – Guardian's Custom Glass Solutions is pleased to announce the launch of the newly redesigned website RVGlassParts.com. The streamlined website directly serves end-user consumers, making it quick and easy to file an insurance claim for a broken RV windshield.

Clara Kagy, General Manager of [Custom Glass Solutions](http://CustomGlassSolutions.com) RV Glass Network says, "We are thrilled with the refreshed site and believe our customers will share the same sentiment. The site has been radically simplified and the navigation is clear and easy-to-use. The site provides end-to-end solutions for RV owners to simplify the windshield replacement process. Everything you need to begin repairing or replacing your RV windshield, including a dynamic form that allows you to begin submitting your insurance claim, is now at your fingertips."

Longtime digital marketing partner, [GHI Internet Services](http://GHIInternetServices.com) (GHIIS), based in Medina, Ohio, developed the new site. "The goal of the redesign was simple," comments Pete Keever, President & Co-Founder of GHIIS. "Create a clean, easy to use site that allows a customer to get a one-stop-shopping experience in repairing or replacing their RV windshield. We redesigned and launched the site in only one month, and of course it's responsive so it works well on mobile devices."

About Custom Glass Solutions

[Guardian's](http://Guardian.com) Custom Glass Solutions (CGS) is North America's leading producer of large format, laminated glass systems. In addition to laminated glass, CGS also manufactures flat, bent, and tempered glass systems, offering a broad range of capabilities and the most diverse selection of products for many different transportation segments.
